

Stainless Steel Bulb Holder for GG Watermelon Glass Lens Kit

NEW

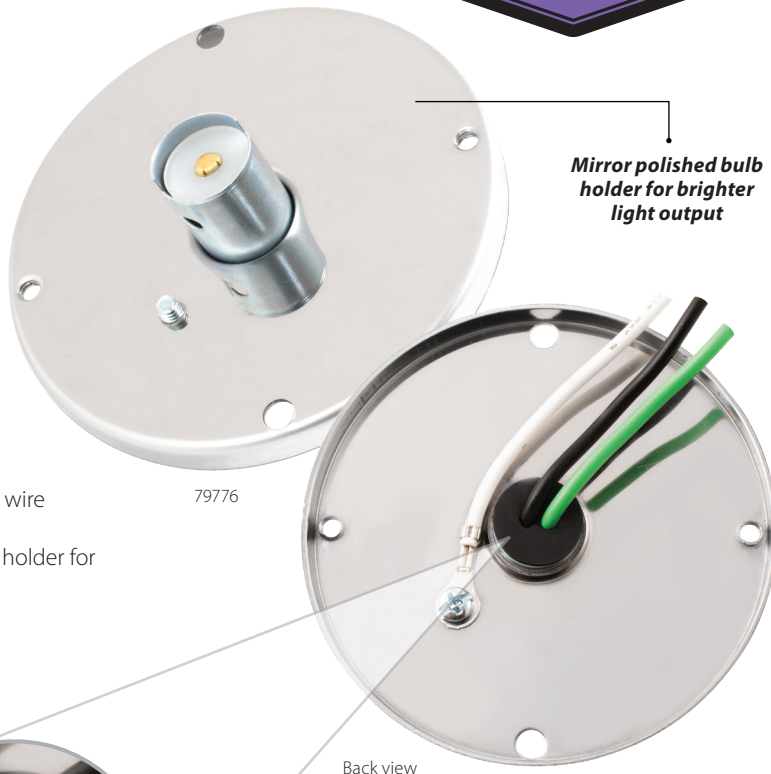

**STAINLESS STEEL
WATER RESISTANT BASE**

At Grand General, we are committed to improving and delivering superior products. We are proud to introduce our upgraded Watermelon light base bulb holder, now available in super high-quality stainless steel, ensuring durability and a mirror polished finish that enhances light output.

For better moisture protection, the base is equipped with a rubber grommet to prevent moisture from entering the lens, ensuring long-lasting performance.

We've also added a dedicated ground wire for constant ground connection, preventing loose wiring and ensuring easy installation.

- Bulb Base** 1156 Single or 1157 double - 12V
- Size**..... 3-5/16" Dia x 1" H
- Features**..... Specially designed water resistant heavy duty wire grommet helps keep moisture out
Mirror polished 430 grade stainless steel bulb holder for brighter light output
- Installation**..... Lead wire with dedicated ground wire for a consistent ground connection
- Unit & Package** Sold by each, bulk

**Watermelon PLUS
Glass Lens & Stainless Steel
Customizable Kit**

Grand General is proud to introduce our new Watermelon PLUS glass lens kit. We've redesigned our iconic Watermelon lens and elevated it to new heights. With sharper lines and enhanced detailing, the lens delivers a bold and radiant lighting pattern that is sure to turn heads.

Our kit features a heavy duty, high-grade stainless steel bezel and interior bulb holder that is polished to a mirror shine. For better moisture protection, the base is equipped with a rubber grommet to prevent moisture from entering the lens, ensuring long-lasting performance.

We've also dedicated a ground wire for constant ground connection, preventing loose wiring and ensuring easy installation, giving you the most stylish, highest quality watermelon light on the market. We've decided to leave out the bulb, allowing you to customize and tailor it to your needs.

Bulb Base 1156 Single or 1157 double - 12V
